“2025 was a great year for Vistance Networks. We stayed committed to what we could control to improve company performance and profitability while creating shareholder value. For the fourth quarter, Vistance Networks reported net sales of \$515 million, an increase of 24% from the prior year, and delivered Core adjusted EBITDA of \$99 million, an improvement of 55% year-over-year, supported by growth in both segments. We are well positioned for 2026 as we continue to implement our strategic initiatives in Aurora and Ruckus. Our 2026 annual guideposts for Core adjusted EBITDA are in the range of \$350 to \$400 million,” said Chuck Treadway, President and Chief Executive Officer.

“For the full year 2025, Vistance Networks reported net sales of \$1.93 billion increasing 40% from the prior year and delivered adjusted Core adjusted EBITDA of \$379 million which increased 176% year-over-year. We ended the year with \$923 million of cash, up \$260 million versus end of 2024. Our strong 2025 performance coupled with the CCS transaction unlocked shareholder value and has positioned Vistance Networks to continue on the path of creating additional shareholder value,” said Kyle Lorentzen, Chief Financial Officer.

Free cash flow for the fourth quarter was \$255 million driven by strong EBITDA. We ended the year with a strong liquidity position of \$1.5 billion including \$923 million of cash and approximately \$584 million of availability under our asset-based revolving credit facility.

On January 9, 2026, the Company completed the previously announced sale of the CCS segment to Amphenol Corporation and used the \$10 billion of net proceeds to pay all of its outstanding debt and redeemed all of the preferred equity. The Company expects to distribute the excess cash to our shareholders, as a special distribution of no less than \$10 per share, by the end of April 2026. As a result of the transaction, unless otherwise noted, these financial results relate to Vistance Networks’ continuing operations based on the following remaining two reporting segments: RUCKUS and Aurora. For all periods presented, amounts have been recast to reflect these changes.
